

Commercial Slide Gates

If space is at a premium, Lincoln Metalcraft can fit and install a commercial sliding gate to your premises. This will not intrude onto your much needed grounds. These can be manually operated by one member of staff or if you wish, Lincoln Metalcraft can automate the system to speed up the entry and exit to your business.

We will fit and install your gates and keypad or intercom system, but if that is not required we will fit sensors so they open automatically as a vehicle approaches.

All our commercial gates are fitted with sensors to prevent injury to staff and visitors and their vehicles. With the added security our gates offer your company, they are also aesthetically pleasing and can enhance the look of your premises.

- All our commercial metal gates are made to measure
- All designs can be custom built to suit your requirements
- We can design and manufacture any gate in a wide range of materials including iron and steel
- We offer a full range of quality finishes
- Enhance plain iron work with scroll panels or floral units
- We can produce precise drawings ensuring you will be happy with the finished product prior to manufacture
- For extra security gates can have back board in various colours
- All our metal gates can be automated
